

SPECIAL STUDY/TRAFFIC SCOPE DETERMINATION REQUEST

A scoping meeting may be required to determine the parameters of the study and must have occurred prior to the Traffic Study being submitted to the Town and NCDOT for review. Preliminary Plan reviews, which includes all Special Studies must be submitted concurrently.

E-mail this form and a Vicinity Map at 500' scale to DSIntake@hollyspringsnc.gov for review. The Development Services Engineering Manager will determine if a special study is required. If required, a Scoping Meeting will be scheduled with NCDOT and Town representatives, as well as the applicant and the applicant's Transportation Engineer. Scoping meetings will be held via Zoom.

Do not submit a Sketch Plan (pre-submittal) Meeting request until you have had your scoping meeting or have been provided direction from staff.

Project Name: _____

Firm preparing Traffic Study: _____

Firm working on the development project: _____

Anticipated Submittal Date: _____ New Project Updating Existing Traffic Study
