

Fats, Oils and Grease (FOG) Survey

In compliance with State and Federal Laws the Town of Holly Springs has developed a Fats, Oils, and Grease (FOG) Management Program. The purpose of this program is to educate the public and business owners of the problems associated with grease and grease accumulations. FOG in wastewater can result in decreased capacity of sewer lines by cooling and congealing on the insides of pipes. This occurrence eventually causes blockages and sewer overflows and, therefore, is a major concern for the Town's wastewater collection system. Significant sources of FOG are cooking establishments due to the amount of grease used in cooking and other food preparation work. Improper disposal and cleanup practices allow FOG to enter the wastewater collection system. To work together to achieve the common goal of protecting the Town's resources we are asking business owners that produce grease as part of their daily operations to take a few moments and complete the following survey.

Return this form with your Development Petition to Development Services. For questions about permit submittals or requirements contact Development Services at 919-557-3908.

COMPANY INFORMATION	
Name of Business:	
Address:	
Phone:	E-mail:
Company Representative:	
Title:	
Please provide a brief description of business operations:	
FOG INFORMATION	
How many and what size grease handling device (grease trap or interceptor) do you have? (Please list dimensions)	
Location of grease handling device(s):	
Cleanout service provider:	
Does your grease handling device have a sampling chamber? (A sampling chamber is required for grease traps)	
How is the waste disposed of and where?	

Thank you for taking the time to complete this survey.

If you have any questions or concerns of your responsibilities in maintaining your grease trap or interceptor in accordance with the Town's Sewer Use Ordinance, please contact Jenny Exum at (919)577-2907 or email jenny.exum@hollyspringsnc.gov.
